

Document name:	Release Plan
Product name:	"Don't Dine Alone"
Team name:	The Grand Daddy of All Teams
Release name:	"Don't Dine Alone"
Release number:	1
Release date:	June 2018

Vision:

We want to make an Android app for students to meet over lunch. This app would be restricted to UCSC personnel, to prevent unauthorized personnel from coming on campus. At its core, the app will allow students to sign in and match up with other students to go eat at the closest dining hall between the group of 2+ people. This would basically give new students to get the chance to go out and meet people.

High Level Goals (Must be ordered and include the release functionality that is required by CMPS 115 (i.e. prototype testing, continuous integration, and website). May map to single user story, but typically to multiple)

#	Story Points	Goal	Sprint
1	5	Basic Login Screen with Buttons	1
2	13	Login Authentication with UCSC email	1
3	2	Welcome Page	2
4	21	Matching System	2&3
5	8	Profile	2
6	8	Push notifications	3
7	13	Confirmation	3
8	13	Manual Selection	2
9	13	Messaging	4
10	21	Location and Map Functionality	4
11	5	Report via email	

12	21	Preferences	2
----	----	-------------	---

Story points = estimated time/difficulty

Sprint 1 User Stories				
#	Story Pts	As a...	I want...	So that...
1	5	User	I want a basic interactive UI / login screen	I know where to start
2	13	User	I want to be able to login with my ucsc email address	So that I only link with other UCSC students.

Sprint 2 User Stories				
#	Story Pts	As a...	I want...	So that...
1	3	User	Welcome page	The app can feel more appealing to me.
2	8	User	Profile feature	I want to feel unique.
3	13	User	Manual Selection	I can choose anyplace I want to eat on campus
4	21	User	Preferences	I can have more choice in who I group with.

Sprint 3 User Stories				
#	Story Pts	As a...	I want...	So that...
1	21	User	Match with other users	I can find someone to dine with.
2	8	User	Push notifications	I know when I have

				a match.
3	13	User	Confirmation	I can verify when I matched with someone

Sprint 4 User Stories				
#	Story Pts	As a...	I want...	So that...
1	13	User	Messaging	I can contact the people I'm meeting up with
2	21	User	Match with other users/dining rooms by physical location	We have the added convenience of not having to select a dining hall.
3	5	User	Report user via email	Remove abusive participants

Product Backlog (All discussed high level goals and user stories unreached):
