

Document name:	Sprint 4 Plan
Product name:	"Don't Dine Alone"
Team name:	The Grand Daddy of All Teams
Sprint completion date:	June 5, 2018
Revision number:	
Revision date:	

Sprint Goal (short, 1-2 sentence description of the high-level goal(s) for the sprint):

Finalize matching system and add polish features.

Tasks listing (reorganized by user story which are ordered by priority):

User Story 1		
As a user, I want to be able to match with other users so I can meet new people.		
(Total Time)		24
Task#	Description	Est Hrs
1	As a developer, I want to finalize our matching system, so I can successfully match people with the same preferences.	21
2	As a developer, I want to test the matching system so that I can make sure that it works.	3

User Story 2		
As a user, I want be able to find nearby dining halls, so I don't have to think about what dining halls are closest to me.		
(Total Time)		34
Task#	Description	Est Hrs

1	As a developer, I want to learn the google map api so I can implement a location system.	13
2	As a developer, I want to use location information to set my dining hall preferences to the dining halls nearest me	8
3	As a developer, I want to display some sort of map to the user, so they are able to find their meeting location.	13

User Story 3		
As a user, I want to confirm my matches, so I can verify when I match with someone.		
(Total Time)	14	
Task#	Description	Est Hrs
1	As a developer, I want to design a confirmation protocol, so users aren't automatically matched once they start matching.	3
2	As a developer, I want to implement confirmation through the database, so confirmations can happen remotely.	5
3	As a developer, I want to design a confirmation notification or page, so users have an intuitive feel of the confirmation process.	5
4	As a developer, I want to test all features and fix any bugs necessary, so that the users have a smooth experience.	1

Team roles (short, 1-2 sentence description of the high-level goal(s) for the sprint):

Name	Sprint Role(s)
Tyler Hu	Produce Owner
Cody Cunningham	Scrum Master, Developer
Tarun Salh	Developer
Mackenzie Huynh	Developer
Jean Park	Developer

Initial Task Assignment:

<u>Name</u>	<u>User Story</u>	<u>Initial Task</u>
Tyler	3	Task 3:1 As a developer, I want to Design a confirmation protocol, so users aren't automatically matched once they start matching.
