# Sprint Report 4: Don't Dine Alone

## Actions your team needs to start doing:

- 1. We need to start pair programming more, so that we accomplish share our knowledge and solve problems more easily.
- 2. We need to start committing more often, so that we can practice continuous integration and update things more easily.
- 3. We need to start tracking time better, so that we have a better idea of how much time things take.
- 4. We need to start testing more so that we have way better test coverage and have more confidence in changes.

### Actions your team needs to stop doing:

- 1. We need to stop being late to TA meetings, so that we can get better feedback.
- 2. We need to stop using magic variables so that we have an easier time understanding and modifying code and so that we introduce less bugs.
- 3. We need to stop putting off testing so that it is less overwhelming.

## Actions your team needs to keep doing:

- 1. We need to keep researching, so that we find good solutions to our problems and learn new techniques..
- 2. We need to keep working with our strengths, so that we all contribute to the group and help each other out.
- 3. We need to keep communicating, so that we can understand what changes and additions have been made so we can change time and progress forward smoothly.

#### Work completed:

List user stories that your team finished during the sprint

- Matching System
- Push Notifications for match
- Email reporting

## Work not completed: Testing

List user stories that your team has not finished during the sprint

#### Work completion rate:
