User Stories (Color Map)

User Story 1 - Matching System

User Story 2 - Notifications

User Story 3 - Confirmation

Bug

Scrum / Class

Future/Maybe

NOT DONE (feel free to add anything to help yourselves)

Task 1-6: Test preference matching queue system (1h)

DOING (feel free to add yourself to anything)

Task 1-5: Implement matching with preferences (8h)

👁 🦒 TH

Task 2-3: Integrate notifications into the app (8h)

CC

DONE

Task 1-1: Refractor DB (8hr)

👁

Task 1-2: Design a tentative queue system (1h)

👁

Task 1-3: Implement tentative queue system (5h)

👁   CC   TH

Task 1-4: Test prelim queue system (1h)

👁   TH

Task 1-5-1: MatchActivity

TH

Task 2-1: Learn notification api (3h)

CC

Task 2-2: Preliminary notifications when a database event is triggered (5h)

CC

Task 2-4: Test the notifications (1h)

CC

Task 3-1: Design a confirmation protocol (3h)

Task 3-2: Implement confirmation through the database (5h)

Task 3-3: Design a confirmation notification or page (5h)

Performance - Delay in uploading profile in edit profile. Will pre-saving user prefs @ login.onStop and then loading that be faster? Less requests to DB as well.

👁 💬 1

Bug - Choose preference before continuing.

👁 💬 1

Bug - Go back to Dine after Done editing profile

👁

Style Guide: Naming functions, buttons, variables. Comments, //Text vs // Text. onClick vs onClickListener. for(){ vs for () {

👁

Sprint 3 Plan: 1. Tasks 2. Est. Times 3. Chart 4. Init Board

BUG LIST (NOT DONE)

Bug - offline when Editing profile

Bug - User may still be considered online even though phone crashed.

Perf/Bug - should unsubscribe and resubscribe non-critical listeners

Style - How come we have xxxxReg, xxxxPw, etc for email/password on registration? Is this for security?

Todo - Update security options once done developing.

FUTURE/FEATURE LIST

Password reset

Delete user

Add more logs?

SavedPreferences or user information between activities?

Would be nice to have a Status type

Background tasks

DOC LIST (NOT DONE)
